## KEY BENEFITS OF JLAB WORK HEADPHONES

### QUICK MUTE ROTATING MIC

The flip-to-mute rotating boom mic ensures clear communications during calls. You can easily mute the microphone by flipping it up when you don't want to be heard. The rotating design allows you to position the mic optimally for better voice pickup.

### SMART ACTIVE NOISE CANCELLATION (ANC)

Indulge in up to 30 dB of noise cancellation while retaining awareness of your surroundings, ensuring an immersive audio experience.

### CRYSTAL-CLEAR CALLS

Experience exceptional call clarity with the adaptive noise-canceling mic, while the rotating ENC mic allows for quick mute and 'Hear Yourself' mode, facilitating seamless communication in any environment.

## WHAT THE EXPERTS HAVE TO SAY

"It turns out that the folks over at JLab also make keyboards and mice; and they're actually pretty darn good, able to trade blows with some of the best keyboards out there."

**techradar**

"Why blow \$100 for a webcam from a brand that you probably haven't heard of? Because what **JLab** is offering is better than the competition."

**Laptop**

"The JLab Go Work Bluetooth headsets are a solid piece of engineering that's **very helpful for working from home.**"

**Android Police**
