CyberPower®

PHENOMENAL COMPACT POWER

PDUs designed for tight spaces

Bring smart, space-saving power control wherever you need it with CyberPower's new compact switched PDUs. Manage four outlets individually or together—locally or remotely—to reboot equipment, schedule power, and keep critical devices running with ease. Compact and versatile, these PDUs are an ideal fit behind digital signage, alongside IT and AV equipment, or in hard-to-reach spaces under desks and tables.

SWITCHABLE OUTLETS

POWER EVERY DISPLAY

With reliable, compact power

COMPACT SWITCHED PDU FEATURES

Switchable Outlets
Provides local and remote control of individual or multiple outlets, including on/off, restart, power sequencing schedules, and disabling unused outlets.

Digital Display
Provides easy-to-read information about amperage, voltage, KW, IP address, and other PDU information.

Remote and Local Monitoring
The user can track PDU vitals both offsite and onsite. It also provides control to turn individual outlets or circuits on/off.

Upgradeable Firmware
Downloadable improvements (firmware updates) to programs that run the PDU.

CyberPower Management Console
Built into Switched PDUs, the CyberPower Management Console remotely controls and schedules outlet or circuit power cycling, monitors input and power draw, sends status alerts, and logs events.

Automatic Event Notifications
Provides immediate updates about power events via email, SMS text, or SNMP traps.

MODEL	VOLTS	AMPS	FREQUENCY	OUTLETS	LOCKING	SURGE SUPPRESSION	PLUG + CORD	WARRANTY
